Re: March 2008 Increase

Dear Joint Chairs

I refer to above matter and decision to withhold payment to retained fire service in County Louth for matters planned.

I am happy now to advise that the County retained fire service is considered to be in compliance with all targets sought.

I recommend the payment of this increase and I also recommend retrospective payment to the 1st March.

The outstanding category within this sector relates to both full time fighters and retained fire fighters of Dundalk Town Council and Drogheda Borough Council. Again, I wish to confirm that there are still ongoing discussions in relation to the outstanding matters and that I may be in a position to progress matters in the next number of weeks.

Yours sincerely

Conn Murray
County Manager
